

QUEENSTOWN

The Extension of the Lomond-Blackie railroad will be taken up at the picnic and in view of a bumper crop prospects it will be badly needed. The C.P.R. have promised to send a representative to the picnic and to look over the ground. Committees from the various farms along the proposed line, accompanied by Hon. Chas. Mitchell, land surveyor, will discuss the matter with C.P.R. man.

Born to Mrs and Mr. Unshah a boy.

The last heavy rain nearly caused a flood, all though filled up and as far as several days the roads were almost impassable. About the Alex Godkin's farm big slugs were found in all directions and for several days a saddle horse was the only conveyance that could be used.

While no poor crops can be found anywhere there are some exceptionally good ones and some fields have already headed out.

Last Wednesday a heavy up Call was sent but over the phone announcing that Joe McCabe's house was on fire and although farmers from the white district turned out they arrived too late to save the house. Only the barn on the first floor was saved. All the rest was burned to the ground. The fire started in the basement among the lighting plants and while Mr. McCabe and his boy practically had it out right at the start the fire ran between the walls and got beyond control before many arrived. The house carried insurance, but not to the full extent. It was the best built house in the district.

The picnic arranged by the Queens-town, Kirklake and Berry Water U.F.A. locals will take place on July 15, at the Municipal Park, west shore of Lake McGregor, near the north bank. Boat riding on the lake, a mass ball game and a bucking contest will be among the attractions. Stands for refreshments will be put on by the Kirklake and Queens-town locals. In the evening there will be a dance at the Co-operative Hall at Millio with good music.

A quiet wedding was solemnized in Grace Presbyterian church on Tuesday evening, July 10, when Miss Florence Frances (Vishart) was united in matrimony to John Edgar Gehrke. The bride being attended by her mother, Mrs. M. E. Vishart. The bride was given in marriage by her brother and Rev. W. Johnston officiated. A wedding supper was served by the Misses Gehrke, the groom's sisters, after which Mr. and Mrs. Gehrke left for Great Falls, Montana, the bride traveling in a navy blue serge suit with georgette and matisse underbone and hood hat of navy and gold.

Anna Vishart was born in this district in 1898 in Glenora most of her life spent moving to Calgary. She has many friends who wish her all things good.

The C.P.R. is prosecuting vigorously acts of vandalism on its property when it can locate the culprit. Serious and willful damage was done to improvements on the farm near Gleichien, and prompt steps were taken to apprehend the guilty parties, who were fined.

That the Blackfoot Indians are becoming more and more like their white brethren cannot be disputed under the care of Agent Gooderman and efficient staff. Not only are they becoming successful farmers but they are learning the advantages of the white man's transportation. Last Friday the Indians had the C.P.R. place a car for their use near the freight sheds, which they filled with the many things might be found at the Calgary stations. This included a great variety of tents, poles, blankets, saddles, etc. From their camp on the road was alive with hundreds of the red men with their horses, and their wagons, making for the big fair. From reports in the daily papers they evidently arrived safely and are now in the white folks with their riding and finery. It is said that some men were cutting the line in between Indians and geese were sent out in the wide world.

THE GLEICHEN SCHOOL PROMOTIONS

Appended is the promotions as a result of the recent examinations in the Gleichien High and Public School, as numbering played in order of merit. Those passing with 70 to 90 per cent are given first-class honors, 60 to 80 to second class honors.

ARROWOOD

BY C. G. WALKER

The Arrowood local of the U.F.A. and the Buffalo Hill local of the U.F.A. held a union picnic north of the Bow river bridge last Thursday. By the time that the larger part of the crowd had arrived the lunch was served on four large tables and all partook of what was probably one of the finest picnic dinners that has ever been served in these parts. Soon after dinner was over, with President M. H. Ward as chairman, a short but full picnic program was given, which included a speech by J. C. Buckley, M.P., readings by Mrs. Roscoe Stacey and Miss Grace Hollenberg; songs by Miss Mary Fisher and Mrs. Roscoe Stacey, and the Lytle-Lane trio; a well given recitation "My Twin" by Miss Della Ward and a song and reading by Mr. Neil Campbell, president of the Queens-town U.F.A.

After the program the race and other sport events took place and a real interesting time was spent at that part of the grounds, where the about 400 when the prizes were given. The course had been laid out, until on an offering of \$24.00, which was taken up by the ladies, were again all for an evening meal. Following a great part of the crowd returned to the grounds of the Council and School where a baseball game was held between a team made up of Arrowood men against a team of the young men. This game came out a favor of the young men with a score of 18-7.

The locals maintained a booth upon the grounds where fruits, ice cream, sandwiches and novelties were sold throughout the day. Though a few estimated dollars worth of supplies were brought to stock it, only a small part of it remained to be carried away. Of about 400 people who attended the picnic it is quite doubtful if any were there who did not feel satisfied with the day.

J. C. Buckley, M.P., was present at the regular meeting of the U.F.A. at the Consolidated School auditorium, Friday evening. Mr. Buckley brought up the question of the proposed ferry to the Bow river south of Gleichien and Camp. With the excellent crop prospects and the fact that by hauling by the present system of roads and bridges some farmers have to haul as much as 22 miles further to a trip with hauling outfits which are said to average of greater size than those of any other district in the west, the locals were naturally a vital question. After heated discussion lasted for some time as he hoped to see the most certain method of getting ferries, after which the purchasing of the season's lumber and lumber was discussed and largely decided upon by the members of the local.

"Concerning what a direct line ferry would mean to the farmers of the district. Suppose that Mr. Allen's largest outfit had had to go even ten miles out of the way each trip, as a large part of the farmers of this district are" in hauling the amount of grain that that one man alone in the Gleichien in three weeks 75,000 bushel miles would have been wasted. There was only a fraction of one man's grain. Suppose that 150,000 bushels of grain were saved on the average ten miles in hauling (an amount which seems a conservative estimate for this season) and the sales saved would equal hauling (in bushel miles) of enough to transport one bushel to the market and back two times and in addition around the earth over a dozen times. At present prices of hauling it would amount to \$7,500 to get the estimated amount of grain hauled the extra ten miles, and that is for one good season only. Time to consider the question then.

Mrs. Lord and Mrs. Lott have been on the sick list for several days. The family of A. J. Harrington are all back at their old home to spend the summer.

Miss Mahle, Jones, of Gleichien, spent the week-end visiting friends. The radicals are the liberals; the liberals, the conservatives; and the conservatives the forgetful of tomorrow (no reference to political parties in the above paragraph) for as so to the progress of uplifting civilization is impeded.

The regular meeting of the Buffalo Hill U.F.A. met at Mrs. Kemper's Friday afternoon, 23 members and 10 visitors being present. A demon-

stration of twelve kinds of salads, a paper on, "Balanced Rations and Food Values", with two very interesting readings by Miss Aagan constituted the program of what is said to have been the best meeting of the organization has yet had. The next meeting is to be held with Mrs. Baker, July 25th instead of July 16, as announced.

Some, I notice, have gotten the idea that some of the items which I have been naming in this column are being handed to me by a number of individuals to falsely boost themselves, which would be a very good idea, if someone could tell me that; but I am sure that I expect to be held responsible for all my items. The printer and I each make mistakes. We are not perfect, but when something goes wrong—come to us.

The Red Cross baseball team met the local ball team on the home ground, Saturday evening. After the first inning it was a close and tightly matched game. Paul Irwin, with his excellent line of ball was the centre of interest with the home crowd. Jack Dodge umpired the game in a fitting manner with his quick and firm decisions. The side lines were well filled and thoroughly enjoyed the game, which ended 15-11 in favor of the visitors.

Local Otherwise

It's all fine and dandy.
No real kick coming yet on the rain.
Can you beat it anywhere? For rain.

The Alberta Government gives notice that the Sale Relief Act concerning taxes expires October 21st next.

W. W. Polak is taking a post graduate course in accounting with the Canadian Liquid Air Co. in Calgary.

Mrs. H. A. Halliday and three children of Jamestown, N. D., have returned home after a month's visit with her brother, F. E. Polak.

Mrs. Leathner was successfully operated on last Saturday at Calgary for gall and latest reports state she is rapidly improving.

During the past week heavy changes have been made in the G.A.'s mailing list, and we would ask readers to take a look at the label on their paper to see it is O. K.

T. H. Beach will hold an auction sale of furniture belonging to B. S. Covey on Thursday, September 10th, 1923. Mr. and Mrs. Covey are leaving here shortly and everything must be sold.

Uniformity of game laws of the four western provinces was discussed during the past week by representatives of all the governments at a conference held in Winnipeg.

The Provincial Public Works Department is finding its hands full keeping pace with the trouble caused by heavy rains and floods in different parts of the province. The course of the Old Man river at Cowhead has been changed by floods, and it has been found necessary to change the location of bridge there. Similar trouble it is understood has been caused on the Highwood river. The heavy rains have set the road program of the Public Works Department to a considerable extent, it being impossible to do much work under the conditions existing.

After spending a fine time in camp on the banks of the Bow river, near the golf links, the members of the Gleichen Bachelors on Friday night in a special car for Calgary, and are now camped on St. James reserve. It is said enjoying military life immensely. When the boys left, there were some monetary difficulties pointed out that they were unable to accompany their comrades, and a few of our young fellows who regretted they had not joined up that they too might have had the trading necessary to go. This outing will no doubt materially assist in obtaining new members for the Battery.

Chautauque will come to Gleichen again next year. Over one hundred signatures being obtained last Thursday before the superintendent left on the afternoon train. It was a difficult task indeed to get some to sign this year, far more difficult than any of the previous years, owing to the scarcity of money, yet the signatures were obtained. When / men like Messrs. Chris Brown, J. M. Webster, A. A. Brown, Ad. Wilsch, M. Bollinger and other prominent farmers and business men start anything they make it go—this being the more instance of their sticktoothiness. After all the old arguments are used up against guaranteeing \$1500 the fact remains that the people of Gleichen and district do want to see a few good entertainments and this means about the only way it can be accomplished at the least expense. A lot of people who signed the guarantee could not do so, and it is now up to all to show their appreciation when the time offered it were than those who refused come around again in a material and willing manner.

Canada Confident of the Future

CANADA is endeavoring to regain her place after the war stride in the midst of many difficulties, debt, deflation and depression being some of them.

even a blazed trail. They had to fight savages, frosts, scarcity, loneliness and starvation.

The United Empire Loyalists subdued an unbroken forest in one generation, growing the first wheat amid the stumps and snags of the new clearing.

The Selkirk settlers came to Manitoba when the prairie was a buffalo pasture and grew wheat where none had grown before and where those who knew the country best at that time said wheat would never grow. Today the Canadian prairies grow the finest wheat in the world.

In proportion to population Canada stands today among the wealthiest nations in the world, with averages of \$200 per head of population. \$500. Canada's foreign trade per head of population is \$100, the highest of the commercial nations, compared with \$15 in 1922-23, the 'peak' year before the war.

New Opportunities for Canada

In Canada, although prices in the world markets fell below war levels, our farmers reaped last autumn the largest grain crop in Canadian history, and Canada became the world's largest exporter of wheat, thus a large measure making up for lower prices.

Last year, Great Britain, after an agitation extending over thirty years, removed the embargo on Canadian cattle, and a profitable and practically unlimited trade is coming up for Canadian stockmen and feeders.

"The 20th Century belongs to Canada"—if Canadians keep faith. The next article will suggest practical opportunities for profit making on our Canadian farms.

Have Faith in Canada
